clients across **Italy, Switzerland, Netherlands.**

PARTNERSHIPS

BUSINESS MODEL

Annual subscription,
license + service fee.

If sold via a partner (e.g. GE), payment terms determined also by partner

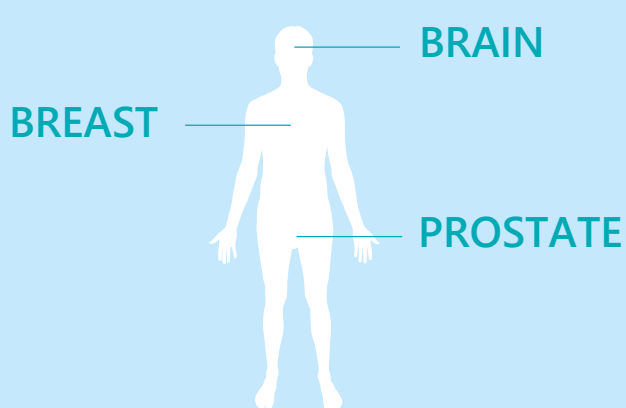

BRIEF HISTORY

- Founded as a **spin-off of Erasmus MC**, Rotterdam
- Obtained **CE marking** and **FDA clearance** for two MRI brain scan analyses products
- Integrated with **GE AWS**
- Prof. Wiro Niessen, cofounder, received **Simon Stevin award**
- Founded Quantib-U**, joint-venture with UMC Utrecht enabling access to data and expertise of another top academic center

AREA OF EXPERTISE/ CURRENT SOLUTIONS:

Brain MRI - FDA- & CE-certified.

MODALITIES COVERED

MRI

STEP OF THE RADIOLOGIST JOURNEY

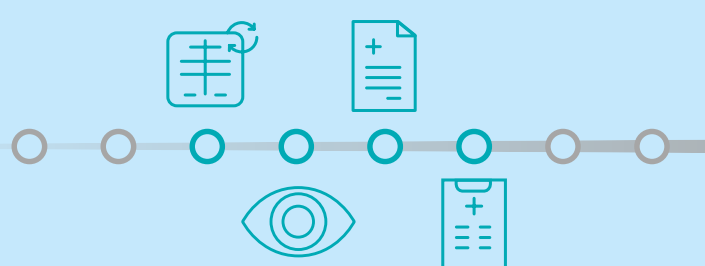

IMAGE PROCESSING; DETECTION; DIAGNOSIS; LABELLING & REPORTING

INVESTMENTS ROUNDS

TOTAL FUNDING
€6.35M

VISION FOR THE FUTURE

Product Development Roadmap:

MRI prostate and MRI breast solutions in 2019, potentially X-Ray hip.

How do you see the future of the AI ecosystem?

User-friendliness, integration and validation will be key drivers for adoption of AI in radiology. It will take effort and time from multiple parties but it is here to stay.

What is your role in it?

Pioneer and disrupter. Scaling radiology expertise and enabling access for medical practitioners worldwide.
