

# THE AI STARTUP UNIVERSE: A COMPANY SNAPSHOT

## QMENTA

SINCE 2013

### LEADERSHIP

PAULO RODRIGUES  
CEO, CTO

VESNA PRCHKOVSKA  
COO

PABLO VILLOSLADA  
CHIEF MEDICAL OFFICER

LONDON MCKENNA  
CCO

### CLIENTS

> 30

Biotech companies, hospitals & academic institutions with **focus on US, EU**. 1000+ expert network made up of doctors and researchers collaborating through the **platform**

### PARTNERSHIPS

### BUSINESS MODEL

Subscription/licensing-based fee per patient tiers; Fee-per-analysis per patient tiers; Co-selling partner algorithms

### INVESTMENT ROUNDS

TOTAL FUNDING

€4M

### BRIEF HISTORY

2013 – Founded in Barcelona as **Mint Labs** with Neuroimaging expertise

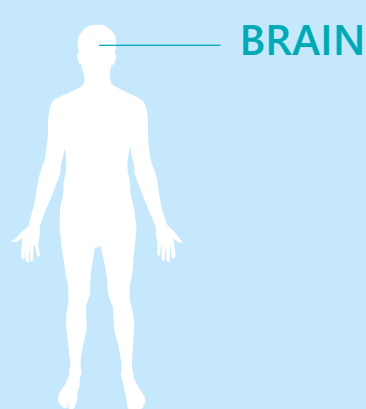

2015 – Winner of **Grants4Apps Accelerator** 2015 startup program by Bayer HealthCare

2017 – AuntMinnie.com **Best New Radiology Vendor** 2017

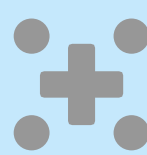

2018 – received ISO 13485:2016 certification

### AREA OF EXPERTISE/ CURRENT SOLUTIONS:

- FDA & CE certified solutions for **Brain imaging**
- Integrated with PACS of major OEMs

### MODALITIES COVERED

CT, MRI, PET

### STEP OF THE RADIOLOGIST JOURNEY

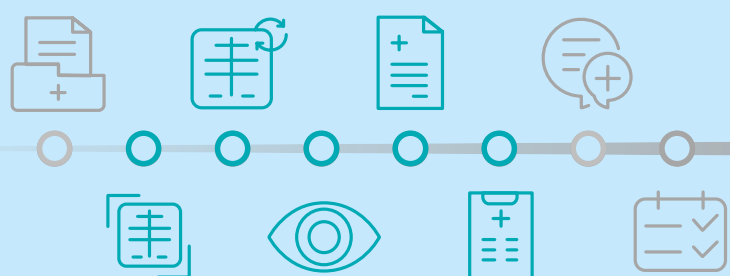

IMAGE ACQUISITION,  
IMAGE PROCESSING,  
DETECTION, DIAGNOSIS,  
LABELLING & REPORTING

### VISION FOR THE FUTURE

#### Product Development Roadmap:

New AI-based solutions for imaging in clinical trials; New solutions for Traumatic Brain Injury (TBI), stroke and neurosurgery; Partnerships with PACS and VNA vendors

#### How do you see the future of the AI ecosystem?

**Adoption** of AI-based tools in medical imaging workflows; emergence of **precision imaging**, bringing forward the measuring power of AI-based tools, and its contribution to **support clinical decision making**. Looking at **predictive models** rather than waiting for a patient to show symptoms.

Big OEMs are viewing their cloud marketplaces as their own vendor-specific space, since eventually they aim to sell their equipment together with their software. While QMENTA's vision is **vendor-neutral**.

#### What is your role in it?

The **go-to brand** for brain image processing.
