

THE AI STARTUP UNIVERSE: FDA APPROVED AI ALGORITHMS 2008 - 2019

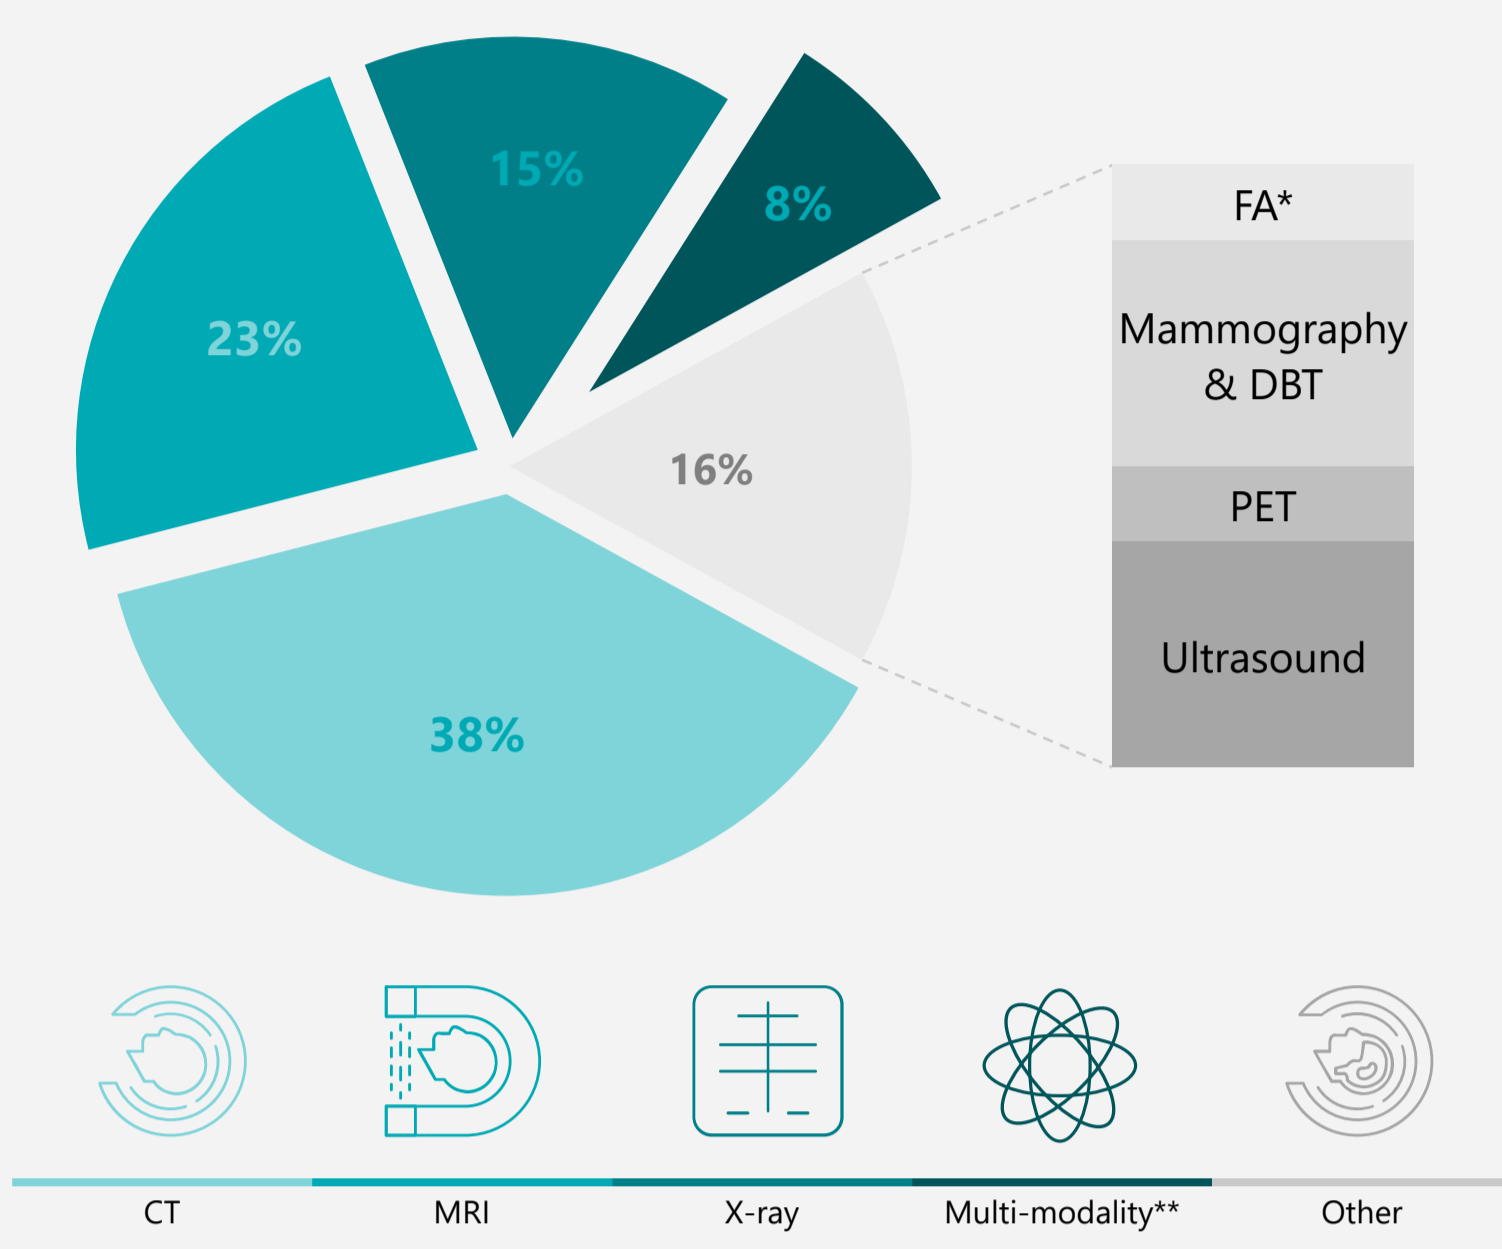

THE GROWTH OF AI IN RADIOLOGY: FDA-Approved Algorithms 2008-2019

*

The peak of approved FDA AI algorithms is tightly correlated with FDA's recognition of AI's importance in healthcare as well as its decision to modify its traditional regulatory framework to promote innovation and support the use of AI-based technologies.

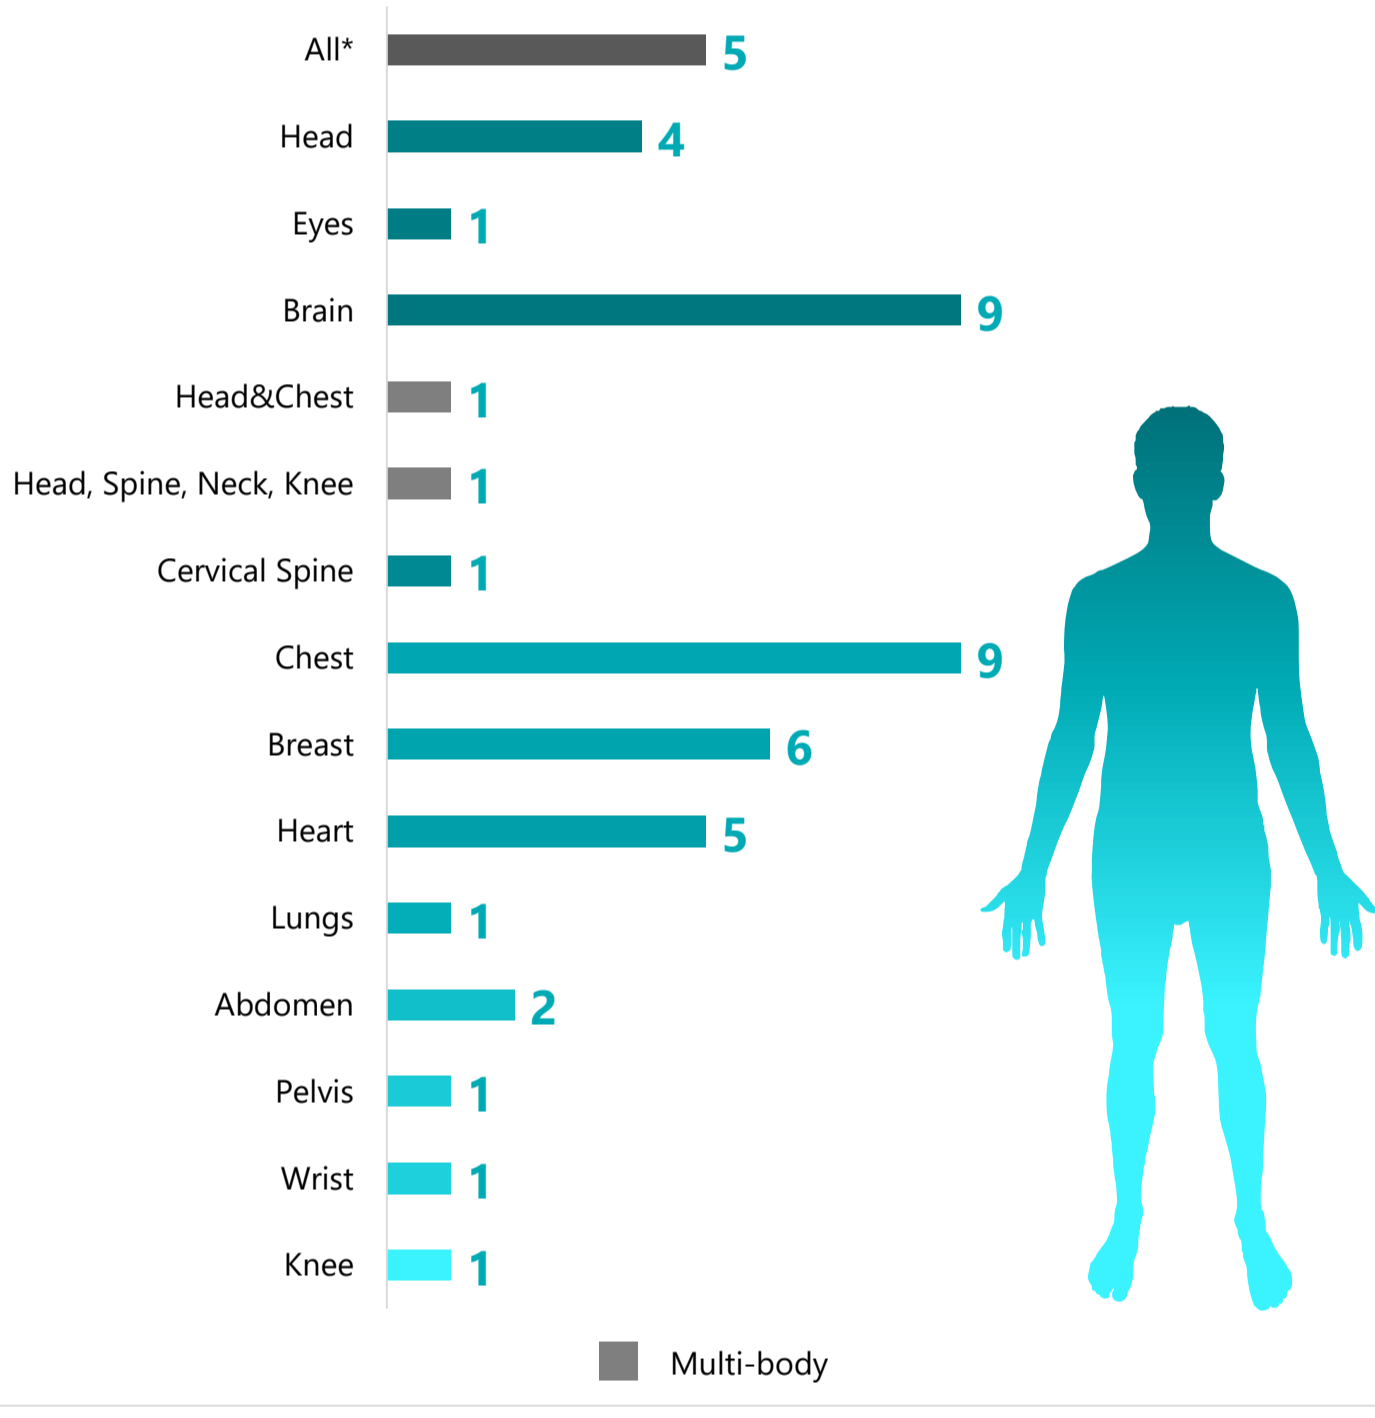

APPROVED AI ALGORITHMS Per Imaging Modality (Count, %)

*Fluorescein angiography (FA)

**Multi-modality applies to algorithms processing images from various modalities, e.g. MRI & CT

APPROVED AI ALGORITHMS Per Body Area (Count, %)

*ALL indicates algorithms' application not specific to a particular body area

APPROVED AI ALGORITHMS PER COMPANY

4x algorithms

3x algorithms

2x algorithms

1x algorithms
